OUR GOAL AND MISSION

GOAL: **Health** and **Wellness** is a major topic that is important to our entire nation as there is a growing trend in the obesity and diabetes level in American adults. Research shows that 33 percent of Americans are obese and 13 percent are diabetic. We want to create a website that is easy to use and applicable to people of all ages, backgrounds, and experiences. Our user experience will be around 45 percent for middle age adults, 20 percent for teenagers, and 35 percent for seniors.

Welcome To
HEALTHWELL

Recipe Finder

The recipe finder exists to help users create meals from the comfort of their homes. Dining out/purchasing takeout is very common and has increased more since the COVID-19 pandemic. Unfortunately, not everyone is financially capable enough to always buy meals from outside nor does everyone have someone that can cook meals for them. With the recipe finder, users can search up ingredients they already have in their homes and follow a recipe to cook a dish.

This feature can be used when

- ◆ making a heart-felt dish for someone
- ◆ lacking money to eat out
- ◆ recreating a meal
- ◆ wanting to try out something new

***Currently, the recipe finder is only limited to Jamie Oliver recipes but we do plan on expanding our cookbook so users have an even more diverse range of dishes to choose from.**

Brown Stew Chicken

Chicken

Instructions:

Squeeze lime over chicken and rub well. Drain off excess lime juice. Combine tomato, scallion, onion, garlic, pepper, thyme, pimento and soy sauce in a large bowl with the chicken pieces. Cover and marinate at least one hour. Heat oil in a dutch pot or large saucepan. Shake off the seasonings as you remove each piece of chicken from the marinade. Reserve the marinade for sauce. Lightly brown the chicken a few pieces at a time in very hot oil. Place browned chicken pieces on a plate to rest while you brown the remaining pieces. Drain off excess oil and return the chicken to the pan. Pour the marinade over the chicken and add the carrots. Stir and cook over medium heat for 10 minutes. Mix flour and coconut milk and add to stew, stirring constantly. Turn heat down to minimum and cook another 20 minutes or until tender.

Goals View - Motivation

GREEN	Goal fully met
YELLOW	Goal almost met
RED	Goal not met

Yellow encourages users to not give up when they get one yellow day following many green days, and to reinforce good progress when they start transitioning from red days.

Goals View - Benefits

- Allows for easy viewing of an entire month
- Motivates users with their progress always visible
- Makes spotting trends easier

Goals View - Method

- Created through HTML and CSS
- Made to be easily modified in order to plug into the food tracking feature, by just adding simple attributes like “green” or “hidden” to each day
- Styled to match the background, and the colors have been designed to be simple to alter

```
<div class="calendarDateLabel yellow">04</div>  
<div class="calendarDateLabel red">05</div>  
<div class="calendarDateLabel yellow">06</div>  
<div class="calendarDateLabel yellow">07</div>  
<div class="calendarDateLabel green">08</div>
```

```
.hidden {  
  color: dimgrey;  
}  
  
.red {  
  background-color: salmon;  
}  
  
.yellow {  
  background-color: gold;  
}
```

Online Membership Page

Premium Membership

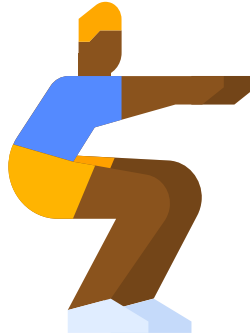

- Users can purchase a Premium membership for \$20 a month for 12 months.

Services

- Select services that are offered with the membership are listed.

Benefits

- The Premium membership will give customers access to additional services not included in the free version.

Membership Benefits Include:

Customized Meal Plans

- Access to various meal plans to assist in achieving fitness goals.

Virtual Training

- Access to virtual one on one training with fitness professionals

Workout Guides

- Access to various pre-made workout guides. Users can select which guides to follow for their goals.

Linking External Apps

Users can open up MyFitnessPal and the iPhone Health app by clicking on the Link Apps page

Home Link Apps Recipe Finder Online Membership General Plans & Pricing

Users can then click on the appropriate app icon of their choosing

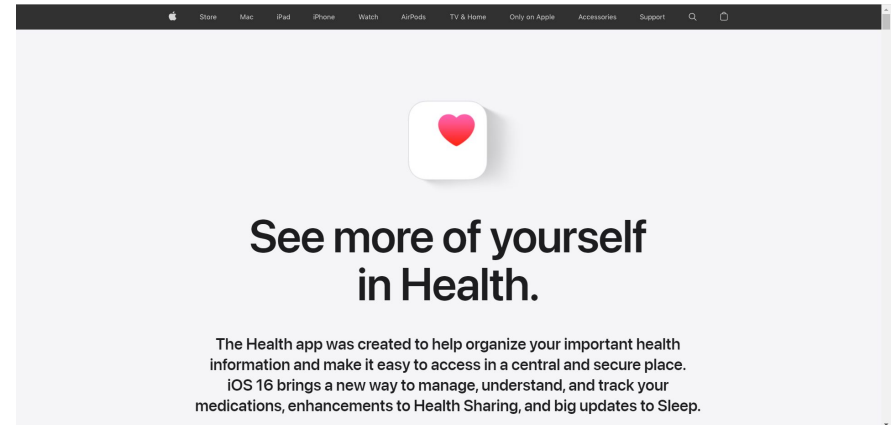

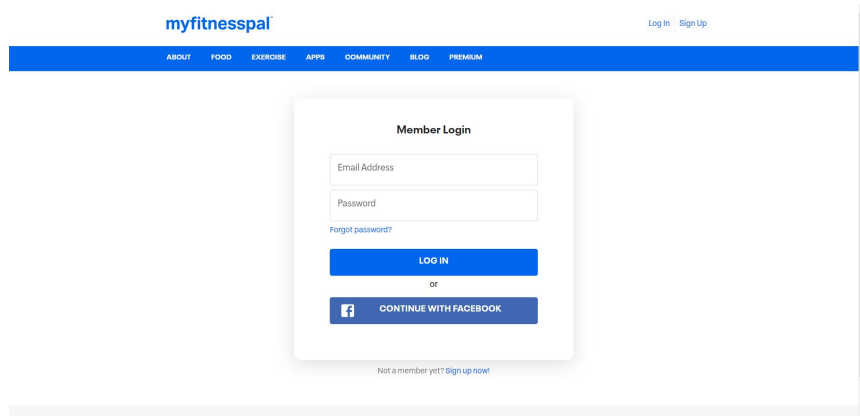

MyFitnessPal

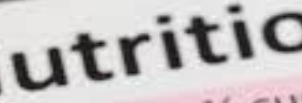

Health iPhone App

It will then bring users to the correct website

Things We Learned and Challenges Faced

- We learned how to effectively communicate with each other
- We learned how to build a website using a template and incorporating code to add certain features/functions to the website
- Some aspects of website building were hard because we weren't familiar with the coding languages
- Some of us learned how to utilize API to create search engines with (Javascript, CSS, HTML, etc)

Thank You!
